

Plutozab Hub

YOUR STORE'S AI COPILOT

Turn Business Data into **Instant Answers**

HOW IT WORKS

From Scattered Data to Confident Decisions

Your data is scattered across accounting software, spreadsheets, and more. Plutozab Hub brings it together — analyze it and act, in the same conversation.

1

Connect Your Data

Link Zoho Books, WooCommerce, Tally, ERPNext, databases, and Sheets into one workspace.

2

Ask the AI Assistant

Ask in plain English — sales trends, top customers, stock levels — on web, WhatsApp, or Telegram.

3

Compare Against Targets

See actuals vs. targets from Sheets or your ERP, instantly.

4

Chase Receivables

Get customers to follow up with, amounts, and aging — exportable to Excel.

5

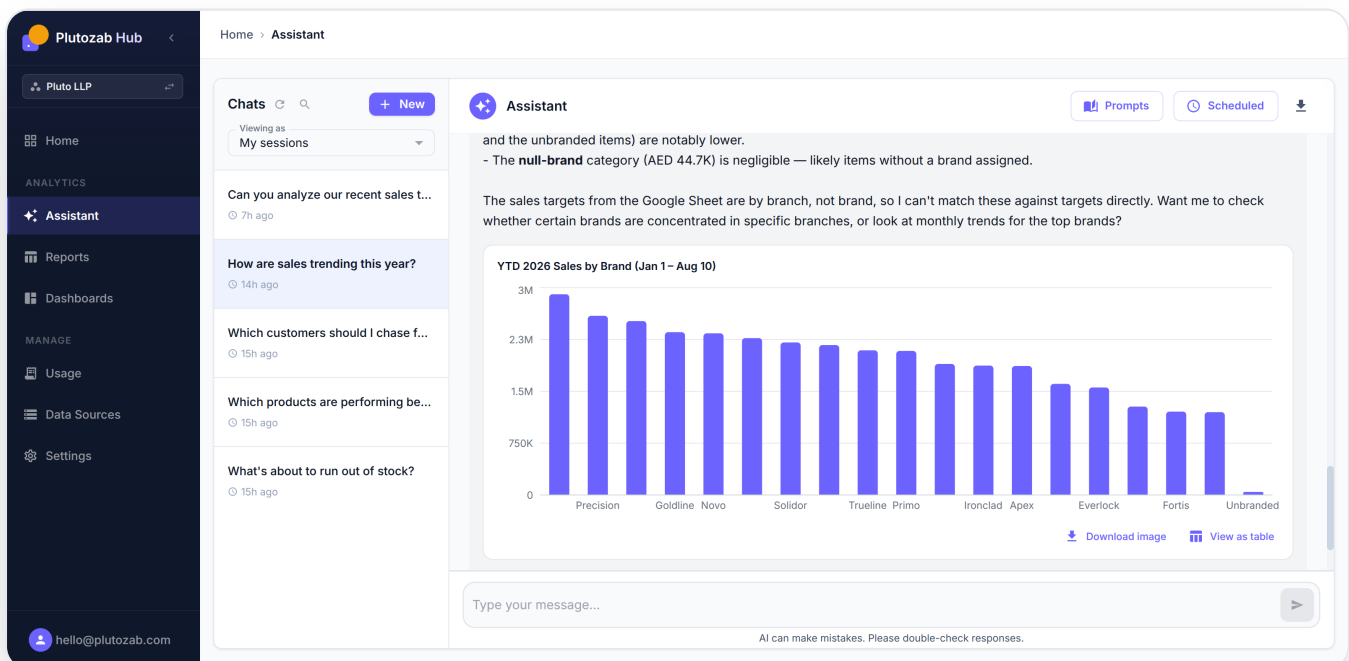

Spot Product Performance

See what's driving revenue and what needs restocking or discontinuing.

6

Explore Complex Questions

Combine sales, inventory, customer, and financial data in one prompt.

Ask anything — get charts, tables, and answers in seconds

Pro tip: forecast and plan in one ask

"Forecast demand for 90 days and recommend how much to stock, using inventory from other regions."
One prompt, one answer.

INSIDE THE PRODUCT

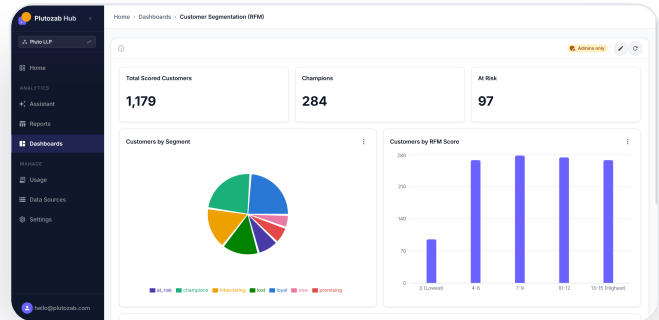

Reports, Dashboards & Alerts — Ready When You Are

Start with ready-made reports and dashboards, or describe what you need and let AI build it.

Plutozab Hub - Home - Reports - Outstanding Receivables (AR Aging)

Detailed, ready-to-go reports — outstanding receivables, reorder levels, and more

Live dashboards — customer segmentation, sales performance, inventory health

Ready-Made Reports

Payables, receivables (AR aging), reorder levels, and more — no setup required.

AI Report Builder

Describe what you need in plain English — AI builds the columns and filters.

Live Dashboards

Sales, cash & payments, customer segmentation (RFM), and inventory health, visualized.

Real-Time Notifications

Get alerted on churn risk, revenue anomalies, large orders, and low stock.

Scheduled Prompts

Recurring insights, like weekly sales trends, delivered on schedule.

Role-Based Access

Everyone sees only their region or category — company-wide data stays protected.

SEE IT IN ACTION

Which customers should I chase for payment?

Here's **customers_to_chase_for_payment.xlsx** — 485 customers with balances, aging, and invoice details, ready to share.

CONNECTS TO EVERYTHING

Works With the Tools You Already Use

Bring your accounting, storefront, database, and analytics platforms together — no migration required. This list keeps growing, and we build custom integrations — including legacy ERPs — on request.
